(From Our Regular Correspondent.)

WASHINGTON, April 29.—The Virginia coupon case will be brought to the Supreme Court of the United States on a writ of error.

Formerly in case of a divided court like this there was a certificate of division.

If placed on the docket now it would be about the twelve-hundredth case,

and would upon a readjustment of the docket become about the eight- or nine-hundredth. It could not be orally argued for three years, but could be submitted on printed briefs, by consent of parties, during the first ninety days of the next term. It could not be advanced on the docket, because cases other than criminal cases can only be advanced in the Supreme Court under the 26th rule, which is as follows: "Revenue cases and cases in which the United States are concerned, which also involve or affect some matter of general public interest, may also, by leave of the Court, be advanced on motion of the Attorney-General."

VIRGINIANS IN OTHER STATES—VIRGINIA FARMS.

A census bulletin issued to-day shows the number of Virginians, white and colored, to be as follows in the States indicated. Similar statistics in regard to other States will be furnished by the Bureau hereafter:

In Maryland, 17,015 white, 9,739 colored;

Louisiana, 1,735 white, 19,586 colored;

Kentucky, 30,193 white, 6,322 colored; Indiana, 22,975 white, 1,563 colored; Georgia, 3,302 white, 11,214 colored; Florida, 8,240 white, 2,489 colored.

There are now 118,517 farms in Virginia against 73,849 in 1870. Of these 83,531 are occupied by owners, 13,392 are rented for money, and 21,504 on shares. Virginia has 1,563 farms with over 1,000 acres in each.

The Disaster to the Steamer Golden City.

MEMPHIS, April 29.—Local-Inspectors Garrett and Balston have completed their investigation in the steamer Golden-City disaster of March 30th. They find that the vessel was provided with a full complement of officers and crew, and equipped with all fire-extinguishing apparatus and life-saving appliances required by law. They held that the vessel in carrying jute without the same being covered with bagging violated the spirit of section 472 of the Revised Statutes, and revoked the license of J. N. Bondurant, the mate. The inspectors say that after the fire was discovered the officers put forth every exertion to save the passengers, and they are held blameless for the loss of life.

MEMPHIS, April 29.—The dead bodies of a man and woman, supposed to be victims of the Golden-City disaster, were recovered yesterday. One was found on Cow Island, eighteen miles below the city, and the other at Burdeau's Point, sixty miles below here. N. F. McIntyre, clerk of the ill-fated steamer, left this afternoon to identify the bodies.

A Mystery of the Deep.

PLYMOUTH, Mass., April 29.—Collector S. H. Deler has received information from the life-saving station at Manomet in regard to a chest reported as found yesterday that leaves little doubt that a vessel must have been lost with all on board near this coast in the storm of Saturday night last. The chest when opened showed several articles of clothing, outer and underwears, with small articles usually carried by sailors. On the flyleaf of a Testament was written the name, "Robinson B. Millbury, Hampton." There was also a watch-chain with an acorn for a charm. In a manuscript-book was the entry, "April 25, 1882, shipped in the Anna for fifteen dollars per month"; also a piece of manuscript poetry, signed "Isaac Millbury." The surfer also picked up during the day yesterday pieces of panel-work, of cabin finish, and a barrel of flour, the contents being only slightly wet.

A North Carolina Greenhorn Robbed in New York City.

NEW YORK, April 29.—Martin P. Dixon, a North Carolina farmer, who came to this city to sell a patent car-cooper, was paid \$1,800 for the copper yesterday, and shortly afterward John Schroeder and his wife, residents of Broome street, met him on Broadway. They invited him to a saloon, where all partook of beer. When they were going out Dixon found \$1,200 of his money gone, and charged Mrs. Schroeder with taking it. He caused to be arrested, and she was arraigned this morning in the Police Court, but stoutly denied the theft. The case was adjourned until Monday.

Arrested for Threatening Victoria.

DORCASTER, April 29.—A London detective and the chief local constable here-to-day arrested a railroad employee named Albert Young, living at Sparborough, for threatening the life of the Queen. He will be taken to London. It is believed the threat was mere bravado.

LONDON, April 29.—Young wrote to General Sir Henry Ponsonby, private secretary to the Queen, demanding money and threatening her Majesty and Prince Leopold. He is apparently crazy. He was brought up at the Bow-Street Police Court this afternoon and remanded. The case was adjourned until the 1st instant.

Arrests were made by the police of the town last week of several young men who had raised a disturbance and resisted the officers. They returned to town, and five of them made a desperate assault on Policeman Ed. Bradford. The attacking party were Pink Rowe, Charley Rowe, Pink Symon, Howell Parish, and a man named Carliss. A Happy Young Gentleman.

Mr. E. H. Roads, residing at No. 214 W. Ninth street, Wilmington, Del., says he knows more about the law of contrast than he did last winter. He did not know that what inflammatory rheumatism was. He has since been thoroughly initiated into all its mysteries, and there is a very steep contrast between the feelings of a man when he is dosed with rheumatism and enjoying immunity from it. During the Christmas holidays he was aroused from his sleep about 2 o'clock in the night with pain in his right hand and wrist. He felt as if his arm weighed a ton and had been crushed by an elephant. He never had anything to hunt him so badly in his life. He didn't sleep much more that night for the pain, and again was forced until 8 o'clock when he applied St. Jacobs Oil. His hand had grown so stiff by the time the first application was made that he could not move a finger, and even St. Jacobs Oil could not induce the disease to loose its grip until it had been used two days. At the end of that time, however, the famous old pain-annihilator drove out the last vestige of pain, and he was all right again and ready to eat, sleep, and enjoy himself like other men. He has not had any sign of it since, and does not care to make it acquaintance.
